Mr. Rawlings was out at the time, but his wife, who went to the door, was in-stantly struck by the fact that the de-scription of Eills, which had been pub-lished in the Dispatch, was an exact de-scription of the visitor. The man gave his name as Mr. Ellis, and expressed great disappointment at the absence of Mr. Pawlings. He would not wait, he said, but would call again at 9 o'clock next morning, and so he went away. He did not keep his appointment, but Mr. Rawlings waited for him nearly all the

That day, however, Ellis was seen again in Petersburg, and to a Dispatch report-er he made the startling announcement that he was not the husband of the woman who claims his name. Here, again, he made an appointment which he failed to keep, and yesterday afternoon, while Mr. and Mrs. Rawlings had gone on the street car to Forest Hill, Mr. Ellis again presented himself at the pastor's resince, and to the took gave his rame a Ellis, and sold he would return in the evening. Rawlings waited until a late hour for th promised visit, and then retired for th ight, giving up all expectation of meeting the clusive Ellis at present,

A SCHOOLMATE OF ELLIS'S TALKS The following special was received from the Petersburg correspondent of the Dis-

patch last night: Jarratt C. Ellis, who was in the city yesterday, has not been seen since last night. After the interview of the Dispatch correspondent with him he failed to keep his appointment, and the suppo-sition is that he has left the city. Among those who know him there seems to be no doubt that he is the husband of Mrs Lizzie Miller Ellis, now in the jail i Richmond. He has had every opportunit here to disprove this fact among th ople who have shown him the publi cations in the Dispatch, but he simple denied that he was ever married, an further refused to talk about the matter schoolmate of J. est, and until it is disposed of Eilis's whom the latter visited yesterday hile in Petersburg, the following factor learned: Ellis was of a roving displain, and was not satisfied to work of mother's farm. He left home see ral years ago, and his family heard fro him occasionally from different places in Virginia and North Carolina. It was while Ellis was in Newport News, keep ried; that his people were notified of his marriage in a letter zent from Nort Carolina, and that later he visited his home in Prince George and introduced that he had married Miss Allen, of Farm

THE MUSIC AND CONCERT. In preparing for the coming of the con-vention probably no committee has had more difficult task than that which has faced the Music Committee. From the first it was the purpose of these gentlemen to have the music of the convention of 1899 the best that has ever been furnished. With this idea in view they be-gan a systematic canvass of the various churches of all denominations, both in Richmond and Manchester, and enrolled a choir of over seven hundred picked singers, and for three weeks past this great chorus has been meeting three time. a week for rehearsal. The words were selected from the Scriptures, from the poems of Ter Steegen von Suso, and others, with supplemen-tary poetry by Mrs. M. E. Shorey, of Baltimore. HOW THE TROUBLE BEGAN. The present trouble was precipitated yesterday when a committee of thirteer representing the Homestead Lodge of th Amalgamated Association, went to Su perintendent Cory to demand the telnstatement of fifteen union men who had been discharged in the last three weeks. Mr. Cory and President C. M. Schwab received them in the company's office, and not only discharged them, but informed them that they could not go back into the mill to get their dinner buckets. This action of the company incensed the Amalgamated people, and they immediately took steps to get their members and sympathizers out of the mill. The result of this movement is somewhat in

through the newspapers to-day as fol-

WHAT THE WORKMEN SAY.

The workmen claim that the strike will assume greater proportions next week, as the men who worked night turn this week will then take a hand. These mightturn men quit work at 6 o'clock this morning and will not go on until Monday. After quitting work this morning, night-turn men lingered on the street corners and discussed the situation in little groups, with evident uncertainty. They were close mouthed about their intentions. There are 6,500 men now employed at he Homestead Steel-Works, of whom 2,000 are skilled workmen, eligible to mem-bership in the Amalgamated Association. UNION CITY BURNED BY MINERS. Imported Negroes Repeatedly Fired Upon in Illinois.

CARBONDALE, ILL., July 1-Union City, a small town, built and occupied by union miners near here, was burned at midnight after a battle between the union men and imported negro miners, who were fired upon at Fredonia yester-day. Seeking revenge for the killing of a woman and the wounding of twenty men in their party, the negroes raided Union City at midnight. They opened fire on the homes of the union men. The latter promptly replied. The battle lasted until the union miners were driven from their homes and took refuge in a clump of timber close to the village. The union men at once applied the torch and the village was destroyed.

The negroes then advanced to the

woods, where the union miners were conealed, and until daylight a fusiliade was kept up between the factions. No lives have so far been reported lost in the en gagement. Reinforcements have gone to the aid of the union miners. TROOPS ORDERED OUT.

the firing still continues. Both sides are well armed and determined, and the Sheriff is powerless. Only the presence of State troops, it is asserted, will prevent the loss of many lives.

THE CONDITIONS ARE WORSE. SPRINGFIELD, ILL., July 1.—Acting-Governor Warder late to-night received the following dispatch from Sheriff Gray, dated Marion, Ill.: "Conditions are worse. A man is here from Carbondale begging for help for Brush, and he is begging me. I am powerless. I am sure there will be a big fight soon. Ammunition and guns came to strikers on 9 o'clock train. They are fixing to wipe out Brush mines tonight. Get us help as soon as possible."

Sheriff Gray telegraphed half an hour later that the Brush mines were surrounded by 250 men. Acting-Governor Warder telegraphed Sheriff Gray that the Acting-Govern Carbondale Company would get their guns at midnight and be at Cartersville soon after. The Mount Vernon Company will arrive about the same time.

(Copyright, 1899, by the Associated Press.) LONDON, July 1 .- Senator Hanna completed the first ten days of his stay in England at Windsor, where he witnessed military review this afternoon and eading to the mine have been cut and caught his first glimpse of the Queen. He has enjoyed Lendon immensely, and his health has been his health has been so greatly benefited that he has postponed his visit to Paris

and Aix-Les-Bains for another week. "I am delighted with outdoor life in England," Mr. Hanna cald to a reproentative of the Associated Press to-day, and with the wise methods born of experience which tenches the leaders in olitics and business to limit their work. ng hours and take every opportunity for est and recreation.

HIS POLITICAL PREDICTIONS. "I have not talked American politics with English newspaper men," he said. "but I am free to say that I believe the old ticket will be renominated by the Republicans next year, and that it will be re-elected. I anticipate little opposition to the first part of this proposition, and I have no doubt the American people will decide the latter part as they did

"My reason for this belief is based on he fact that the United States is now entering on a renewed area of pros-perity. Every promise of the Republican party has been kept. Every prediction has been fulfilled. There is not a man in the United States to-day out of work who wants work. This is the normal condition. Commercial prosperity is based on confidence, and the only thing which can destroy the confidence now prevailng is a change of administration CONDITIONS OF OUR OWN MAKING.

'Are there persons who manifest a

pirit of dissatisfaction with the course events in the Philippines?" the Senaor was asked. He replied: "To my mind he conditions there are largely of our wn making, in delaying the annexation "So far as the Democratic party is concerned, I believe it was never so much at sea as at present. The South is tenucious to its Tree-silver convictions, These are still under the sway of Bryan's tible to renominate him and the freevincible. They flocked to the Chicago

convention, over-confident and undis-ciplined for the battle. To my mind these conditions have flow changed. The Democratic chairman, Senater Jones, is ill in Europe. Bryan's only weapon is free silver, and the strength and weak-ness of that weapon is now fully realized. Senator Gorman has seen the error of his ways, I think, and the eastern Democrats will make a great effort to secure a new issue and, if possible, a new man. THE ANTI-TRUST CAMPAIGN. "The trouble about the anti-trust campaign is that they cannot make trusts a political issue. So far as amassing wealth in amounts to injure the public is con-

cerned, the Republican party is just as opposed to it as the Democrats. The Democrats would like to use the anti-expansion idea and possibly Admiral Dewey, but the combination will not do. and Admiral Dewey is so big that he would not permit his reputation as one would not permit his reputation as one of the great admirals of his time to be used for any political purpose.
"Assuredly, the Democrats are at sea.
"Personally, I would like to fight the old fight against free aliver, but, however. the lines of battle are drawn, you will see the American people determined to

ollow the course the President has laid
